

Harriet House

Toddler

The Harriet House Toddler Nursery opened in 2004 and is an exciting extension to our nursery facilities at Albyn School, catering for children from 2 to 3 years of age.

Our nursery has one large room for the toddlers. Our staff provide a safe, caring and positive atmosphere. We have a carefully planned programme of activities to promote each child's development through fun and play. Our catering staff will provide nutritious and wholesome meals for all ages from weaning upwards. We will be very happy to discuss any special dietary requirements your child has.

Our experienced, qualified staff nurture a professional approach, but always within a happy and friendly atmosphere. A combination of play, music and social interaction will gently stimulate even the youngest toddler.

Toddler Room: 2 to 3 Years

In our Toddler Room the children are beginning to mix, make friends and explore with others. At this stage we offer new and exciting activities such as art and crafts, baking, construction, table-top games and puzzles and weekly visits to the School Library. The children also enjoy physical activities such as dancing, music and movement and trips to the School Gym, which adds more stimulation to their fun-packed day.

The Nursery Garden

We are very fortunate to have a spacious, safe, walled and secure garden for our exclusive use. The children can run freely in the fresh air daily and further develop their gross motor skills.

We have a wide range of outdoor equipment for the children to use, such as bikes, balls, climbing frame, chutes and during the summer months we can take our equipment outside and have a picnic snack in the garden under the shade of the tree.
